TRANSPORTATION ENGINEER/PLANNER

The Southeastern Wisconsin Regional Planning Commission has an immediate opening for an engineer or planner with an interest in transportation planning. The Commission conducts area-wide system level highway, transit, and airport planning for a seven county Region, and facility and corridor-level traffic engineering and transportation planning for local governments. Current work efforts include a Kenosha-Racine-Milwaukee commuter rail study; Transit Development Plans for three public transit operators in the Region; Public Transit-Human Service Transportation Coordination Plans for each of the seven counties in the Region; provision of staff services to the Southeastern Wisconsin Regional Transit Authority; the review and update of county jurisdictional highway system plans for each of the seven counties in the Region; refinement of travel demand models and development of advanced and experimental travel demand models; traffic engineering studies; and development of a Regional Transportation Operations Program.

A bachelor’s degree with an emphasis in transportation engineering or planning is required for the position. A familiarity with MS Excel or other spreadsheet software, and ArcGIS 9.x or other GIS software is desirable.

The Commission is an equal opportunity/affirmative action employer. Residency within the seven county Region within six months of date of hire is required.

Position open until filled. Please submit resume via mail, fax, or e-mail to:
